

16 March 2020

Dear Valued Clients,

In view of the embargo on International travel and the closure of certain border posts, flight cancellations are beyond our control and therefore, with immediate effect NO bookings for animals will be accepted for international and cross border into Africa flights for the next 2 months. This includes bookings for Day Old Chicks.

This is for the safety of the animals and their owners.

Please also check your travel bookings as flights are being cancelled and this might impact you negatively if prior bookings have been made.

We will communicate with everyone once this embargo is lifted.
